

Alzheimer's/Dementia Care Units

This type of care is designed to address the special needs of individuals who have a diagnosis of dementia (or the most common form of dementia called Alzheimer's Disease). Alzheimer's/Dementia care can be provided in a special unit within a facility or a free standing community designed to sensitively care for those with Alzheimer's or other memory-related disorders. This type of care provides a secure environment to prevent wandering from the facility. The units are generally designed with keypad entry/exit or a similar security system. Some units provide care for all stages of dementia and some also provide Hospice care. Adult Care Homes providing Alzheimer's/Dementia care are designed for individuals who need minimal to moderate assistance with personal care needs, but who may be at risk for wandering or experiencing behavioral problems as a result of memory impairment. Staff are available 24 hours a day.

ALAMANCE COUNTY

**Information about Long Term Care Facilities in Region G is provided courtesy of
Piedmont Triad Council of Governments Area Agency on Aging
Regional Long Term Care Ombudsman Program**

Long Term Care Ombudsmen are advocates for residents of nursing homes, assisted living facilities, and family care homes. They work to resolve problems of individual residents and to bring about changes at the local, state, and national levels to improve care. Regional Ombudsmen with the assistance of trained volunteer ombudsmen regularly visit long term care facilities, monitor conditions and care, and provide a voice for those unable to speak for themselves.

To Contact your local Ombudsman Call (336) 294-4950
